

Compact pickup stations by LockTec

Safe and contactless delivery of goods and packages

The Plug & Play pickup lockers can be used immediately after delivery.

They are compact solutions for contactless transfer processes and can be delivered within short time.

Whether retail, parcel services or internal processes – with the stand-alone locker system secure transfer is possible.

Pick-up station – model 2 outdoors

20 lockers

Hardware

- Cabinets & shelves made of 1mm raw stainless steel
- Powder coated / lacquered 1,5mm stainless steel doors
- 4 x XS (336mm x 82mm x 650mm)
- 3 x S (336mm x 118mm x 650mm)
- 10 x M (336mm x 192mm x 650mm)
- 2 x L (336mm x 412mm x 650mm)
- 1 x XL (336mm x 852mm x 650mm)
- Control unit with touchscreen and PC
- Color: RAL 5001 to 9001 free of charge

Software

Delivery and pickup codes can be generated through the backend as well as directly at the system. By entering the code the locker opens automatically.

Delivery & requirements

The system is delivered on a base, set up and put into operation immediately without any assembly effort.

A 230V power connection and an Ethernet connection (at least CAT 6e) are required.

Delivery time: on inquiry

Extras (against additional costs)

- Sunlight-readable screen and heating inside technology compartment
- QR code Scanner

(Attention, there may be longer delivery times. Also possible as upgrade package.)

We would be happy to advise you and find the right locker solution for you!
